Skills

- **Languages**: Java, JavaScript
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, ReactJS, ExpressJS
- **Tools/Platforms**: MySQL, MongoDB, Git, GitHub
- **Soft Skills**: Problem-Solving, Team Work, Leadership, Adaptability

Work Experience

Sintora Development | Backend Developer — Since September 2025

- Developed scalable backend APIs using **Node.js**, ensured efficient data flow and optimized system performance.
- Implemented **MySQL** database structures and queries to improve data reliability, integrity, and overall application stability.
- **Tech Stack Used:** NodeJS, ExpressJS, MySQL

DataBot-Labs Company | Freelancer | Full Stack Developer — April 2025 - August 2025

- Architected a fully responsive, high-performance e-commerce platform with seamless UI/UX using **React.js**, ensuring 100% screen compatibility across all devices.
- Configured secure and scalable backend services with **Node.js** and **MongoDB**, enabling efficient data handling, smooth API communication, and optimized user workflows.
- **Tech Stack Used:** ReactJS, NodeJS, MongoDB, Bootstrap

Projects

Account Receivable Software | Github | Live — August 2025 – December 2025

- Analyzed the Struggle of finance teams in corporate companies with manual paperwork for bills, sales, receivables, MOMs, and PO tracking, and built a centralized system to digitalized and automate the entire accounts receivable process and reducing manual data handling by 80%.
- Revamped traditional file-based workflows by creating customers, invoices, payments, PO entries, and MOM records with real-time dashboards and secure data access using React, Node.js, and MySQL, cutting processing time by 60% and reducing data errors by 45%.
- Positioned the platform as a scalable finance solution by enabling searchable financial records, exportable reports (PDF/Excel), and improving financial visibility by 70% and accelerated collections by 30%.
  Tech: React.js, MySQL, Bootstrap, Node.js, Express.js

Kurtis Fashion eCommerce Platform | Github | Live — June 2025 – July 2025

- Designed and implemented a complete eCommerce solution for women's kurtis, supporting seamless product browsing, cart management, and improving customer journey efficiency by 65% and increased successful order completion by 40%.
- Streamlined backend administration by integrated live order tracking, dynamic stock updates, and automated inventory controls, reducing manual data entry by 75% and accelerating fulfillment time by 50%.
- Enhanced the platform for high performance by utilizing SQL and MongoDB for structured and unstructured data, enabled fast real-time retrieval and optimized database management using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB.
  Tech: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Certificates

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys | Link — September 2025
- Computer Communications | Coursera | Link — November 2024
- The Complete Introduction to C++ | Coding Ninjas | Link — October 2024

Achievement

- Solved 100+ Coding Problems on LeetCode to sharpen problem-solving skills. — Since June 2025

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.50*** — *Since August 2023*
- **Dewan Public School** — Hapur, Uttar Pradesh
  Intermediate; ***Percentage: 73%*** — *April 2022 - March 2023*
- **Dewan Public School** — Hapur, Uttar Pradesh
  Intermediate; ***Percentage: 66%*** — *April 2020 - March 2021*
