Technical Skills

Languages: C++, Java, HTML5, CSS3, JavaScript

Web & Frameworks: React.js, Next.js, Angular, Tailwind CSS, Express.js, Node.js, JWT

Tools: Git, GitHub, Google Analytics, AI tools/API Integration

Database & Storage: MySQL, MongoDB

Concepts: Object-Oriented Programming (OOP), Data Structure and Algorithm, REST APIs, Manual Testing

Education

Lovely Professional University BTech in Computer Science and Engineering, CGPA: 6.5

Dewan Public School High School (PCM), 75.5%

Experience

Full Stack Engineer – Data Bot-Labs *(React.js, Node.js, MongoDB, Tailwind CSS)* June 2025 - Present

- **Led development** of a full-featured **e-commerce website** from scratch using **React.js (frontend)** and **Node.js + MongoDB (backend)**, improving overall project delivery time by **40%**.
- **Managed global application state using Redux, enhancing data flow efficiency across components by 70%.**
- **Implemented secure user authentication & JWT-based authorization, reducing login vulnerabilities by 90%**.
- **Developed responsive**, high-performance UI with React.js, **ensuring 100% mobile compatibility and seamless UX**.

Projects

Kurtis Fashion eCommerce Platform *(HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, JWT)*

- **Designed and developed 100%** of the frontend UI and backend using **JavaScript and MongoDB**.
- Built a Kurtis eCommerce platform with **100% core features** implemented **currently 90%** through the testing and optimization phase.
- Achieved **100% mobile responsiveness** and performance optimization for enhanced **user experience and SEO.**

Text-Based Invoice Generator *(Java, OOPs, Data Structure's and Algorithms)*

- Developed as a project to simulate text-based invoice creation using **Java and core OOPs** concepts.
- Used arrays and lists to manage up to **10 products**, with real-time price and total calculations.
- Focused on practicing **structured coding, logic building, and console-based output formatting**.

Employee Management System *(Angular, MySQL, Bootstrap, RxJS, Node.js, Express.js)*

- Developed a **100% responsive user interface** using Angular + Bootstrap, ensuring mobile and desktop accessibility.
- Achieved **90% API response accuracy** by implementing RESTful services for smooth client-server interaction using Express.js and MySQL.
- Implemented complete **CRUD operations** (Create, Read, Update, Delete) for managing **50+ employee records** with live form validations and responsive UI.

Awards & Certifications

LPU: Java Programming	May 2025
LPU: Volunteer at Hostel Committee	Jan 2025
Coding Ninjas: Introduction to C++	Mar 2024
Coursera: Networking	Dec 2024
Participant: Web Ka Hackathon	Oct 2024
